

VersaTURF

Description & Application: VersaTURF offers athletic turf designed with SuperSOFT fibers and an ActionBACK foam backing, enhancing comfort and reducing impacts that can cause injuries. This fully customizable turf allows for the addition of lines and logos, with a wide range of color options available. Known for its durability and ease of maintenance, VersaTURF is suitable for agility training facilities, both indoor and outdoor settings, soccer fields, and various other applications.

Warranty: Pliteq Flooring warrants that VersaTURF, when installed according to its recommended procedures and adhesives, will be free from manufacturing defects during regular use for 10 years from the original installation date. For more information, please reach out.
