

# VersaDUEL

**Description & Application:** A durable pre-bonded multi-layer rubber floor system made from recycled rubber and EPDM granules, designed for impact cushioning and injury prevention in fitness centers and high-traffic areas. It provides shock absorption, vibration damping, and noise control for various environments. **VersaDUEL** is used to cushion impacts from falling objects, reduce fatigue, prevent injuries from repetitive motion and standing for long periods, and ease muscle and joint stress.
